

28 June 83

Room 474
Old EOB.

Bob Kinnitt - NSC - Techs Comm - Oak Ridge

Ken de Graffenried - May be asking for sanitized version
of our regs for help. Needed
no later than 5 July. (Some agencies
having "media" difficulties.

Need consensus on VDA's today.

Presfinkal: ① 2 forms
② Standardized
③ Limited exceptions.

SC agreement of a few changes this morning
will be ones used kept on words.

Willard - 17 June Draft changes.

5a + 5b were a compromise
5a DoD ambiguity concern
CHANGE: "Only SC, or other classified info from
intelligence reports or estimates"

* Only agencies with original class. authority will be doing reviews.

"Don't subtract from the current 4193. Add on if we
wish, but don't draw back on it."

* Willard - 17 June language already in the "process &
method" is more enforceable. Could add it,

STAT

though he thinks it odd little.

I mention & have no obligⁿ to submit information
for paper review if obtained ^{information} after employ or
cont. rel. w/ USG, so long as it does not contain info
~~likely~~ purport to contain information ^{text in part A/B/C/D}
that arises in the course of my employ or cont.
rel. with the U.S.G.

- a - any SCI (see ours)
b - any [cl] info from intel reports or extn; or
c - any info concerning intel act, sources
or methods. I understand that there
no oblig. . . . etc. from above.

→ * Not quite. Later that day some of our ground was
* regained. See new wording in July 83 NOT SENT

The long and short of this meeting is that we lost the battle. Willard is really on our side, but does not want to raise the issue to the Clark/Reagon level.

will prepare a "points" paper for Mr. Casey, giving him the pros and cons of various wordings and recommending that he (Casey) discuss the issue with Clark/Reagan. Willard, Gorfinkel and de Drazzenfeld will cooperate on wording of revised NDA's; they'll be issued soon for our review, but not for any changes. If CIA doesn't like the wording, we'll have to go for a waiver to have a stronger set of forms of our own. (Of course, if Casey gets to Clark/Reagan, the existing forms are strong enough for our use.)
